

Mildura West Kindergarten

Philosophy Statement

At Mildura West Kindergarten we aim to provide a high quality innovative and flexible program for each child and their family in a nurturing, trusting and caring environment (both indoors and out), with a focus on celebrating and encouraging children's individuality and creativity, regardless of their ethnic background, beliefs, gender or ability.

Our aim is to inspire inquisitive minds through active exploration and risk taking and we invite children to be willing participants in their own learning (make choices, discover, create, share ideas, believe in their own abilities and caring for the environment) helping them to become competent, capable and successful individuals.

We encourage families to engage in their child's kindergarten experience by being active members of our community, and participating and contributing to our program. We encourage open communication to support and monitor children's achievements and progress. We pride ourselves on our partnership with our community in providing strong foundations for children's lifelong learning, which enables them to feel safe, valued and proud of their efforts and achievements.

Our vision

Inspiring Inquisitive Minds

Our mission

To bring inspiration, creativity and innovation to every child so they may reach their full potential.

Our principle purpose

We believe each child and family should feel valued, confident and comfortable within our kindergarten environment. All involved with the kindergarten are respected as individuals regardless of their ethnic background, gender, ability, beliefs and attitudes.

Our values

- Passionate, dedicated and approachable Educators
- Welcoming and caring
- Friendly, nurturing environment
- A unique learning centre
- Fun play based curriculum
- Encourage risk taking and belief in own abilities
- Respect for all cultures, religions and abilities
- Family participation
- Accountability
